

Datasheet for ABIN1918451

**anti-Glucocorticoid Receptor antibody (AA 560-588) (PE)**[Go to Product page](#)

## Overview

|                      |                                                           |
|----------------------|-----------------------------------------------------------|
| Quantity:            | 200 µL                                                    |
| Target:              | Glucocorticoid Receptor (NR3C1)                           |
| Binding Specificity: | AA 560-588                                                |
| Reactivity:          | Human                                                     |
| Host:                | Rabbit                                                    |
| Clonality:           | Polyclonal                                                |
| Conjugate:           | This Glucocorticoid Receptor antibody is conjugated to PE |
| Application:         | Western Blotting (WB), ELISA                              |

## Product Details

|               |                                                                                                                                                                        |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                    |
| Specificity:  | This NR3C1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 560-588 amino acids from the C-terminal region of human NR3C1. |
| Purification: | Protein A purified                                                                                                                                                     |

## Target Details

|                   |                                                                       |
|-------------------|-----------------------------------------------------------------------|
| Target:           | Glucocorticoid Receptor (NR3C1)                                       |
| Alternative Name: | NR3C1/Glucocorticoid Receptor ( <a href="#">NR3C1 Products</a> )      |
| Background:       | Name/Gene ID: NR3C1<br>Subfamily: NR3 Steroid receptor<br>Family: NHR |

## Target Details

Synonyms: NR3C1, Glucocorticoid Receptor beta, GR, GCCR, GCR, Glucocorticoid receptor, Glucocorticoid receptor alpha, GRL

Gene ID: 2908

Pathways: [Nuclear Receptor Transcription Pathway](#), [Intracellular Steroid Hormone Receptor Signaling Pathway](#), [Steroid Hormone Mediated Signaling Pathway](#), [Regulation of Intracellular Steroid Hormone Receptor Signaling](#), [Regulation of Hormone Metabolic Process](#), [Regulation of Hormone Biosynthetic Process](#), [Regulation of Muscle Cell Differentiation](#), [Regulation of Carbohydrate Metabolic Process](#)

## Application Details

Application Notes: Approved: ELISA, WB

Usage: The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, no preservatives added

Preservative: Without preservative

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C, -20 °C

Storage Comment: Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light.

Expiry Date: 6 months
