Quantity: 200 µL Target: RERE Binding Specificity: AA 383-409 Reactivity: Human Host: Rabbit Clonality: Polyclonal Conjugate: This RERE antibody is conjugated to PE Application: Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) Product Details Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE Synonyms: RERE, ARG, Atrophin-1 like protein, ARP, ATN1L, Atrophin-1 related protein, Atrophin.			
Reactivity: Human Host: Rabbit Clonality: Polyclonal Conjugate: This RERE antibody is conjugated to PE Application: Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) Product Details Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Quantity:	200 μL	
Reactivity: Human Host: Rabbit Clonality: Polyclonal Conjugate: This RERE antibody is conjugated to PE Application: Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) Product Details Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Target:	RERE	
Host: Rabbit Clonality: Polyclonal Conjugate: This RERE antibody is conjugated to PE Application: Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) Product Details Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Binding Specificity:	AA 383-409	
Clonality: Polyclonal Conjugate: This RERE antibody is conjugated to PE Application: Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) Product Details Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Reactivity:	Human	
Conjugate: This RERE antibody is conjugated to PE Application: Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) Product Details Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Host:	Rabbit	
Application: Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) Product Details Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Clonality:	Polyclonal	
Product Details Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Conjugate:	This RERE antibody is conjugated to PE	
Isotype: IgG Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Application:	Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS)	
Specificity: This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Product Details		
peptide between 383-409 amino acids from the N-terminal region of human RERE. Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	la atura a		
Purification: Protein A purified Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	isotype:	IgG	
Target Details Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE			
Target: RERE Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE		This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic	
Alternative Name: RERE (RERE Products) Background: Name/Gene ID: RERE	Specificity:	This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE.	
Background: Name/Gene ID: RERE	Specificity: Purification:	This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE.	
	Specificity: Purification: Target Details	This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Protein A purified	
Synonyms: RERE, ARG, Atrophin-1 like protein, ARP, ATN1L, Atrophin-1 related protein, Atrophin	Specificity: Purification: Target Details Target:	This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Protein A purified RERE	
	Specificity: Purification: Target Details Target: Alternative Name:	This RERE antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 383-409 amino acids from the N-terminal region of human RERE. Protein A purified RERE RERE (RERE Products)	

Storage Comment:

Expiry Date:

Target Details		
	1-like protein, DNB1, KIAA0458, Atrophin 2, Atrophin-1-related protein	
Gene ID:	473	
Pathways:	Protein targeting to Nucleus	
Application Details		
Application Notes:	Approved: ELISA, Flo, IHC, WB	
	Usage: The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested.	
Comment:	Target Species of Antibody: Human	
Restrictions:	For Research Use only	
Handling		
Format:	Liquid	
Concentration:	Lot specific	
Buffer:	PBS, no preservatives added	
Preservative:	Without preservative	
Handling Advice:	Aliquot to avoid repeated freezing and thawing.	
Storage:	4 °C,-20 °C	

Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-

thaw cycles. Protect from light.

6 months
