

## Datasheet for ABIN1957010 **anti-GM2A antibody (FITC)**

[Go to Product page](#)

### Overview

|              |                                                          |
|--------------|----------------------------------------------------------|
| Quantity:    | 100 µg                                                   |
| Target:      | GM2A                                                     |
| Reactivity:  | Human, Mouse                                             |
| Host:        | Rabbit                                                   |
| Clonality:   | Polyclonal                                               |
| Conjugate:   | This GM2A antibody is conjugated to FITC                 |
| Application: | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

### Product Details

|               |                                                                                                    |
|---------------|----------------------------------------------------------------------------------------------------|
| Immunogen:    | Recombinant human Ganglioside GM2 activator protein.<br><br>Type of Immunogen: Recombinant protein |
| Isotype:      | IgG                                                                                                |
| Specificity:  | Human GM2A                                                                                         |
| Purification: | Caprylic acid and ammonium sulfate precipitation                                                   |

### Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | GM2A                                   |
| Alternative Name: | GM2A ( <a href="#">GM2A Products</a> ) |
| Background:       | Name/Gene ID: GM2A                     |

### Target Details

|          |                                                                                     |
|----------|-------------------------------------------------------------------------------------|
|          | Synonyms: GM2A, Ganglioside GM2 activator, GM2 ganglioside activator, GM2-AP, SAP-3 |
| Gene ID: | 2760                                                                                |

### Application Details

|                    |                                                                                                                                 |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: ELISA, IHC, WB                                                                                                        |
|                    | Usage: The applications listed have been tested for the unconjugated form of this product.<br>Other forms have not been tested. |
| Comment:           | Target Species of Antibody: Human                                                                                               |
| Restrictions:      | For Research Use only                                                                                                           |

### Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Concentration:     | Lot specific                                                                                                      |
| Buffer:            | PBS, pH 7.4, 0.03 % Proclin 300, 50 % glycerol.                                                                   |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid freeze-thaw cycles.                                                                                         |
| Storage:           | -20 °C,-80 °C                                                                                                     |
| Storage Comment:   | Aliquot and store at -20°C or -80°C. Avoid freeze-thaw cycles.                                                    |
