| Quantity:       | 100 μg                                                                                                               |  |
|-----------------|----------------------------------------------------------------------------------------------------------------------|--|
| Target:         | C21orf33                                                                                                             |  |
| Reactivity:     | Human                                                                                                                |  |
| Host:           | Rabbit                                                                                                               |  |
| Clonality:      | Polyclonal                                                                                                           |  |
| Conjugate:      | This C21orf33 antibody is conjugated to HRP                                                                          |  |
| Application:    | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffinembedded Sections) (IHC (p)) |  |
| Product Details |                                                                                                                      |  |

| Product Details |                                                               |
|-----------------|---------------------------------------------------------------|
| Immunogen:      | Recombinant human ES1 protein homolog, mitochondrial protein. |
|                 |                                                               |
|                 | Type of Immunogen: Recombinant protein                        |
| Isotype:        | IgG                                                           |
| Specificity:    | Human GT335 / ES1                                             |
| Purification:   | Caprylic acid and ammonium sulfate precipitation              |
|                 |                                                               |
| Target Details  |                                                               |
| Target:         | C21orf33                                                      |

GT335 / ES1 (C21orf33 Products)

Name/Gene ID: C21orf33

|                     | Synonyms: C21orf33, D21S2048E, ES1, Es1 protein homolog, KNP-I, KNP-Ia, KNPH, KNPI,        |  |
|---------------------|--------------------------------------------------------------------------------------------|--|
|                     | Protein GT335, GT335, Keio novel protein I, Protein KNP-I                                  |  |
| Gene ID:            | 8209                                                                                       |  |
|                     |                                                                                            |  |
| Application Details |                                                                                            |  |
| Application Notes:  | Approved: ELISA, IHC, IHC-P, WB                                                            |  |
|                     |                                                                                            |  |
|                     | Usage: The applications listed have been tested for the unconjugated form of this product. |  |
|                     | Other forms have not been tested.                                                          |  |
| Comment:            | Target Species of Antibody: Human                                                          |  |
| Restrictions:       | For Research Use only                                                                      |  |
|                     |                                                                                            |  |
| Handling            |                                                                                            |  |
| Format:             | Liquid                                                                                     |  |
| Concentration:      | Lot specific                                                                               |  |
| Buffer:             | PBS, pH 7.4, 0.03 % Proclin 300, 50 % glycerol.                                            |  |
| Preservative:       | ProClin                                                                                    |  |
| Precaution of Use:  | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be         |  |
|                     | handled by trained staff only.                                                             |  |
| Handling Advice:    | Avoid freeze-thaw cycles.                                                                  |  |
| Storage:            | -20 °C,-80 °C                                                                              |  |
| Storage Comment:    | Aliquot and store at -20°C or -80°C. Avoid freeze-thaw cycles.                             |  |

## Immunohistochemistry (Paraffin-embedded Sections)
