

Datasheet for ABIN1964404

**anti-CLCN2 antibody (AA 209-237) (APC)**[Go to Product page](#)

## Overview

|                      |                                          |
|----------------------|------------------------------------------|
| Quantity:            | 200 µL                                   |
| Target:              | CLCN2                                    |
| Binding Specificity: | AA 209-237                               |
| Reactivity:          | Human, Mouse                             |
| Host:                | Rabbit                                   |
| Clonality:           | Polyclonal                               |
| Conjugate:           | This CLCN2 antibody is conjugated to APC |
| Application:         | Western Blotting (WB), ELISA             |

## Product Details

|               |                                                                                                                                                                        |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                    |
| Specificity:  | This CLCN2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 209-237 amino acids from the N-terminal region of human CLCN2. |
| Purification: | Affinity purified                                                                                                                                                      |

## Target Details

|                   |                                                                                 |
|-------------------|---------------------------------------------------------------------------------|
| Target:           | CLCN2                                                                           |
| Alternative Name: | CLCN2 ( <a href="#">CLCN2 Products</a> )                                        |
| Background:       | Name/Gene ID: CLCN2<br>Subfamily: Chloride channel - CLC<br>Family: Ion channel |

## Target Details

Synonyms: CLCN2, Chloride channel protein 2, Chloride channel 2, CIC-2, ClC-2, CLC2, EGI3, EJM6, ECA2, ECA3, EGMA, EJM8, EGI11

Gene ID: 1181

## Application Details

Application Notes: Approved: ELISA, WB

Usage: The applications listed have been tested for the unconjugated form of this product.  
Other forms have not been tested.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, no preservatives added

Preservative: Without preservative

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C, -20 °C

Storage Comment: Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light.

Expiry Date: 6 months
