

Datasheet for ABIN1970129

**anti-MARK3 antibody (AA 608-636) (FITC)**[Go to Product page](#)

## Overview

|                      |                                           |
|----------------------|-------------------------------------------|
| Quantity:            | 200 µL                                    |
| Target:              | MARK3                                     |
| Binding Specificity: | AA 608-636                                |
| Reactivity:          | Human, Mouse                              |
| Host:                | Rabbit                                    |
| Clonality:           | Polyclonal                                |
| Conjugate:           | This MARK3 antibody is conjugated to FITC |
| Application:         | Western Blotting (WB), ELISA              |

## Product Details

|               |                                                                                                                                                                              |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                          |
| Specificity:  | This Mouse Mark3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 608-636 amino acids from the C-terminal region of mouse Mark3. |
| Purification: | Affinity purified                                                                                                                                                            |

## Target Details

|                   |                                                                  |
|-------------------|------------------------------------------------------------------|
| Target:           | MARK3                                                            |
| Alternative Name: | C-TAK1 / MARK3 ( <a href="#">MARK3 Products</a> )                |
| Background:       | Name/Gene ID: MARK3<br>Subfamily: MARK<br>Family: Protein Kinase |

## Target Details

Synonyms: MARK3, C-TAK1, ELKL motif kinase 2, EMK2, Etk-1, KP78, PAR1A, Ser/Thr protein kinase PAR-1, Par-1a, CTAK1, EMK-2, Protein kinase STK10

Gene ID: 4140

Pathways: [SARS-CoV-2 Protein Interactome](#)

## Application Details

Application Notes: Approved: ELISA, WB

Usage: The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, no preservatives added

Preservative: Without preservative

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C,-20 °C

Storage Comment: Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light.

Expiry Date: 6 months
