## Overview

|                      |                                                 |
|----------------------|-------------------------------------------------|
| Quantity:            | 100 µL                                          |
| Target:              | MADD                                            |
| Binding Specificity: | AA 1100-1150                                    |
| Reactivity:          | Human, Rat, Dog, Rabbit                         |
| Host:                | Rabbit                                          |
| Clonality:           | Polyclonal                                      |
| Conjugate:           | This MADD antibody is un-conjugated             |
| Application:         | Western Blotting (WB), Immunoprecipitation (IP) |

## Product Details

|               |                                                                                                                                                |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                            |
| Specificity:  | Region between residue 1100 and 1150 of human MAP-kinase activating death domain using the numbering given in entry NP_003673.3 (GeneID 8567). |
| Purification: | Immunoaffinity purified                                                                                                                        |

## Target Details

|                                                                             |                                               |
|-----------------------------------------------------------------------------|-----------------------------------------------|
| Target:                                                                     | MADD                                          |
| Alternative Name:                                                           | DENN / MADD ( <a href="#">MADD Products</a> ) |
| Background:                                                                 | Name/Gene ID: MADD                            |
| Synonyms: MADD, DENN, IG20, KIAA0358, Rab3 GDP/GTP exchange factor, RAB3GEP |                                               |

## Target Details

Gene ID: 8567

Pathways: [Caspase Cascade in Apoptosis](#)

## Application Details

Application Notes: Approved: IP (2 - 5 µg/mg lysate), WB (1:2000 - 1:10000)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: Tris-buffered saline, 0.1 % BSA, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C

Storage Comment: Store at 2-8°C for up to 1 year.

Expiry Date: 12 months
