## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 50 µg                               |
| Target:              | PARL                                |
| Binding Specificity: | AA 71-167                           |
| Reactivity:          | Human                               |
| Host:                | Sheep                               |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This PARL antibody is un-conjugated |
| Application:         | Western Blotting (WB)               |

## Product Details

|                  |                                  |
|------------------|----------------------------------|
| Immunogen:       | AA 71-167                        |
| Isotype:         | IgG                              |
| Characteristics: | Polyclonal Sheep anti Human PARL |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | PARL                                   |
| Alternative Name: | PARL ( <a href="#">PARL Products</a> ) |
| UniProt:          | <a href="#">Q9H300</a>                 |
| Pathways:         | <a href="#">Autophagy</a>              |

Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
| Restrictions:      | For Research Use only                                                           |

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 100 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
