## Overview

|                      |                                                   |
|----------------------|---------------------------------------------------|
| Quantity:            | 50 µg                                             |
| Target:              | TNXB                                              |
| Binding Specificity: | AA 1-673                                          |
| Reactivity:          | Human                                             |
| Host:                | Sheep                                             |
| Clonality:           | Polyclonal                                        |
| Conjugate:           | This TNXB antibody is un-conjugated               |
| Application:         | Immunohistochemistry (IHC), Western Blotting (WB) |

## Product Details

|                  |                                        |
|------------------|----------------------------------------|
| Immunogen:       | AA 1-673                               |
| Isotype:         | IgG                                    |
| Characteristics: | Polyclonal Sheep anti Human Tenascin X |

## Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Target:           | TNXB                                         |
| Alternative Name: | Tenascin X ( <a href="#">TNXB Products</a> ) |

## Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
|--------------------|---------------------------------------------------------------------------------|

Application Details

Restrictions: For Research Use only

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 100 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
