## Overview

|                      |                                                   |
|----------------------|---------------------------------------------------|
| Quantity:            | 50 µg                                             |
| Target:              | TIE1                                              |
| Binding Specificity: | AA 22-760                                         |
| Reactivity:          | Human                                             |
| Host:                | Sheep                                             |
| Clonality:           | Polyclonal                                        |
| Conjugate:           | This TIE1 antibody is un-conjugated               |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC) |

## Product Details

|                  |                                   |
|------------------|-----------------------------------|
| Immunogen:       | AA 22-760                         |
| Isotype:         | IgG                               |
| Characteristics: | Polyclonal Sheep anti Human Tie-1 |

## Target Details

|                   |                                         |
|-------------------|-----------------------------------------|
| Target:           | TIE1                                    |
| Alternative Name: | Tie-1 ( <a href="#">TIE1 Products</a> ) |
| UniProt:          | <a href="#">P35590</a>                  |
| Pathways:         | <a href="#">RTK Signaling</a>           |

Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
| Restrictions:      | For Research Use only                                                           |

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 100 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
