## Overview

|                      |                                                   |
|----------------------|---------------------------------------------------|
| Quantity:            | 50 µg                                             |
| Target:              | Desmocollin 3 (DSC3)                              |
| Binding Specificity: | AA 136-695                                        |
| Reactivity:          | Mouse                                             |
| Host:                | Sheep                                             |
| Clonality:           | Polyclonal                                        |
| Conjugate:           | This Desmocollin 3 antibody is un-conjugated      |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC) |

## Product Details

|                  |                                           |
|------------------|-------------------------------------------|
| Immunogen:       | AA 136-695                                |
| Isotype:         | IgG                                       |
| Characteristics: | Polyclonal Sheep anti Mouse Desmocollin-3 |

## Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Target:           | Desmocollin 3 (DSC3)                            |
| Alternative Name: | Desmocollin-3 ( <a href="#">DSC3 Products</a> ) |
| UniProt:          | <a href="#">P55850</a>                          |

Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
| Restrictions:      | For Research Use only                                                           |

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 100 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
