## Overview

|                      |                                                   |
|----------------------|---------------------------------------------------|
| Quantity:            | 50 µg                                             |
| Target:              | TGFR1                                             |
| Binding Specificity: | AA 21-121                                         |
| Reactivity:          | Human                                             |
| Host:                | Rat                                               |
| Clonality:           | Monoclonal                                        |
| Conjugate:           | This TGFR1 antibody is un-conjugated              |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC) |

## Product Details

|                  |                               |
|------------------|-------------------------------|
| Immunogen:       | AA 21-121                     |
| Clone:           | MM0016-7B09                   |
| Isotype:         | IgG2                          |
| Characteristics: | Rat anti human TGFR-I (ALK-5) |

## Target Details

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Target:           | TGFR1                                             |
| Alternative Name: | TGFR-I (ALK-5) ( <a href="#">TGFR1 Products</a> ) |
| Pathways:         | <a href="#">Growth Factor Binding</a>             |

Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
| Restrictions:      | For Research Use only                                                           |

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 200 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
