## Overview

|                      |                                              |
|----------------------|----------------------------------------------|
| Quantity:            | 100 µg                                       |
| Target:              | BAFF (TNFSF13B)                              |
| Binding Specificity: | AA 81-285                                    |
| Reactivity:          | Human                                        |
| Host:                | Mouse                                        |
| Clonality:           | Monoclonal                                   |
| Conjugate:           | This BAFF antibody is un-conjugated          |
| Application:         | Western Blotting (WB), Flow Cytometry (FACS) |

## Product Details

|                  |                           |
|------------------|---------------------------|
| Immunogen:       | AA 81-285                 |
| Clone:           | MM0106-8K16               |
| Isotype:         | IgG1                      |
| Characteristics: | Mouse anti human TNFSF13B |

## Target Details

|                   |                                                                                                           |
|-------------------|-----------------------------------------------------------------------------------------------------------|
| Target:           | BAFF (TNFSF13B)                                                                                           |
| Alternative Name: | TNFSF13B ( <a href="#">TNFSF13B Products</a> )                                                            |
| UniProt:          | <a href="#">Q9Y275</a>                                                                                    |
| Pathways:         | <a href="#">NF-kappaB Signaling</a> , <a href="#">Production of Molecular Mediator of Immune Response</a> |

Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
| Restrictions:      | For Research Use only                                                           |

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 200 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
