## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 100 µg                                 |
| Target:              | Adipsin (CFD)                          |
| Binding Specificity: | AA 26-253                              |
| Reactivity:          | Human                                  |
| Host:                | Mouse                                  |
| Clonality:           | Monoclonal                             |
| Conjugate:           | This Adipsin antibody is un-conjugated |
| Application:         | Western Blotting (WB)                  |

## Product Details

|                  |                                      |
|------------------|--------------------------------------|
| Immunogen:       | AA 26-253                            |
| Clone:           | MM0196-4M47                          |
| Isotype:         | IgG2                                 |
| Characteristics: | Mouse anti human Complement factor D |

## Target Details

|                   |                                                      |
|-------------------|------------------------------------------------------|
| Target:           | Adipsin (CFD)                                        |
| Alternative Name: | Complement factor D ( <a href="#">CFD Products</a> ) |
| UniProt:          | <a href="#">P00746</a>                               |
| Pathways:         | <a href="#">Complement System</a>                    |

Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
| Restrictions:      | For Research Use only                                                           |

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 200 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
