## Overview

|                      |                                                   |
|----------------------|---------------------------------------------------|
| Quantity:            | 100 µg                                            |
| Target:              | CXCL12                                            |
| Binding Specificity: | AA 22-89                                          |
| Reactivity:          | Human                                             |
| Host:                | Mouse                                             |
| Clonality:           | Monoclonal                                        |
| Conjugate:           | This CXCL12 antibody is un-conjugated             |
| Application:         | Immunohistochemistry (IHC), Flow Cytometry (FACS) |

## Product Details

|                  |                         |
|------------------|-------------------------|
| Immunogen:       | AA 22-89                |
| Clone:           | MM0211-9N26             |
| Isotype:         | IgG1                    |
| Characteristics: | Mouse anti human CXCL12 |

## Target Details

|                   |                                                                                                                                              |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | CXCL12                                                                                                                                       |
| Alternative Name: | CXCL12 ( <a href="#">CXCL12 Products</a> )                                                                                                   |
| UniProt:          | <a href="#">Q6ICW0</a>                                                                                                                       |
| Pathways:         | <a href="#">Regulation of Cell Size</a> , <a href="#">CXCR4-mediated Signaling Events</a> , <a href="#">Negative Regulation of intrinsic</a> |

Target Details

apoptotic Signaling

Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
| Restrictions:      | For Research Use only                                                           |

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 200 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
