## Overview

|                      |                                              |
|----------------------|----------------------------------------------|
| Quantity:            | 100 µg                                       |
| Target:              | IL-15 (IL15)                                 |
| Binding Specificity: | AA 49-162                                    |
| Reactivity:          | Human                                        |
| Host:                | Mouse                                        |
| Clonality:           | Monoclonal                                   |
| Conjugate:           | This IL-15 antibody is un-conjugated         |
| Application:         | Western Blotting (WB), Neutralization (Neut) |

## Product Details

|                  |                        |
|------------------|------------------------|
| Immunogen:       | AA 49-162              |
| Clone:           | MM0368-13S34           |
| Isotype:         | IgG1                   |
| Characteristics: | Mouse anti human IL-15 |

## Target Details

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| Target:           | IL-15 (IL15)                                                                             |
| Alternative Name: | IL-15 ( <a href="#">IL15 Products</a> )                                                  |
| UniProt:          | <a href="#">P40933</a>                                                                   |
| Pathways:         | <a href="#">JAK-STAT Signaling</a> , <a href="#">Glycosaminoglycan Metabolic Process</a> |

Application Details

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Application Notes: | Optimal dilutions should be determined by each laboratory for each application. |
| Restrictions:      | For Research Use only                                                           |

Handling

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Format:         | Lyophilized                                        |
| Reconstitution: | 200 µL of PBS, pH 7.4                              |
| Concentration:  | 500 µg/mL                                          |
| Buffer:         | Lyophilized from a solution containing PBS, pH 7.4 |
| Storage:        | -20 °C                                             |
