Datasheet for ABIN1993994

anti-RYR1 antibody (AA 1-534) (FITC)

Overview

Quantity:	100 µg
Target:	RYR1
Binding Specificity:	AA 1-534
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This RYR1 antibody is conjugated to FITC
Application:	ELISA, Western Blotting (WB)

Product Details

Immunogen:	Recombinant Human Ryanodine receptor 1 protein (1-534AA)
Isotype:	IgG
Cross-Reactivity:	Human
Purification:	>95%, Protein G purified

Target Details

Target:	RYR1
Alternative Name:	RYR1 (RYR1 Products)
Background:	Background: Calcium channel that mediates the release of Ca ²⁺ from the sarcoplasmic reticulum into the cytoplasm and thereby plays a key role in triggering muscle contraction

Target Details

following depolarization of T-tubules. Repeated very high-level exercise increases the open probability of the channel and leads to Ca^{2+} leaking into the cytoplasm. Can also mediate the release of Ca^{2+} from intracellular stores in neurons, and may thereby promote prolonged Ca^{2+} signaling in the brain. Required for normal embryonic development of muscle fibers and skeletal muscle. Required for normal heart morphogenesis, skin development and ossification during embryogenesis

Aliases: CCO antibody, Central core disease of muscle antibody, MHS antibody, MHS1 antibody, PPP1R137 antibody, Protein phosphatase 1 regulatory subunit 137 antibody, Ryanodine receptor 1 antibody, RYDR antibody, RYR antibody, RYR-1 antibody, RyR1 antibody, RYR1_HUMAN antibody, sarcoplasmic reticulum calcium release channel antibody, Skeletal muscle calcium release channel antibody, Skeletal muscle ryanodine receptor antibody, Skeletal muscle-type ryanodine receptor antibody, SKRR antibody, Type 1 ryanodine receptor antibody

UniProt: [P21817](#)

Pathways: [Myometrial Relaxation and Contraction](#), [Skeletal Muscle Fiber Development](#)

Application Details

Application Notes: Optimal working concentration should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Preservative: 0.03 % Proclin 300
Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin™: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.

Handling Advice: Avoid repeated freeze.

Storage: -20 °C, -80 °C

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
