

Datasheet for ABIN202470

**anti-NR2F2 antibody (AA 311-360)**[Go to Product page](#)**1** Image

## Overview

|                      |                                                                                                                                   |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                                            |
| Target:              | NR2F2                                                                                                                             |
| Binding Specificity: | AA 311-360                                                                                                                        |
| Reactivity:          | Human, Mouse, Rat, Dog, Cow, Pig, Rabbit, Zebrafish (Danio rerio), Guinea Pig, Sheep, Horse, Monkey, Chicken, Xenopus laevis, Bat |
| Host:                | Rabbit                                                                                                                            |
| Clonality:           | Polyclonal                                                                                                                        |
| Conjugate:           | This NR2F2 antibody is un-conjugated                                                                                              |
| Application:         | Western Blotting (WB)                                                                                                             |

## Product Details

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:            | Synthetic peptide located between aa311-360 of human NR2F2 (P24468, NP_066285). Percent identity by BLAST analysis: Human, Chimpanzee, Gorilla, Gibbon, Monkey, Galago, Marmoset, Mouse, Rat, Sheep, Elephant, Dog, Bovine, Bat, Rabbit, Horse, Pig, Guinea pig, Zebra finch, Chicken, Platypus, Xenopus, Zebrafish (100%), Opossum, Lizard, Stickleback, Beetle (92%), Sea squirt, Drosophila (85%).<br><br>Type of Immunogen: Synthetic peptide |
| Isotype:              | IgG                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Specificity:          | Human NR2F2                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Predicted Reactivity: | Percent identity by BLAST analysis: Human, Mouse, Rat, Sheep, Dog, Bovine, Rabbit, Pig, Guinea                                                                                                                                                                                                                                                                                                                                                    |

## Product Details

pig, Chicken, Xenopus, Zebrafish (100%).

Purification: Protein A purified

## Target Details

Target: NR2F2

Alternative Name: COUP-TFII / NR2F2 ([NR2F2 Products](#))

Background: Name/Gene ID: NR2F2  
Subfamily: NR2 Hepatocyte NF4-like  
Family: NHR  
  
Synonyms: NR2F2, ARP1, ARP-1, COUP transcription factor II, COUP-TF II, COUP-TF2, COUP-TFII, COUPTFB, COUPTFII, COUP transcription factor 2, EAR3, NF-E3, SVP40, COUPTF-II, TFCOUP2

Gene ID: 7026

NCBI Accession: [NP\\_066285](#)

UniProt: [P24468](#)

Pathways: [Steroid Hormone Mediated Signaling Pathway](#)

## Application Details

Application Notes: Approved: WB (1.25 µg/mL)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Lyophilized

Reconstitution: After adding water, will consist of PBS buffer with 2 % sucrose

Concentration: Lot specific

Buffer: Lyophilized from PBS with 2 % sucrose

Handling Advice: Avoid repeat freeze-thaw cycles.

Storage: 4 °C,-20 °C

Handling

Storage Comment: Long term: -20°C, the use of 50% glycerol is recommended if storing aliquots in -20°C for long term use (up to 1 year)

Short term (less than 1 week): 4°C. Avoid freeze-thaw cycles.
