## Overview

|                      |                                                                                                   |
|----------------------|---------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                            |
| Target:              | FLI1                                                                                              |
| Binding Specificity: | N-Term                                                                                            |
| Reactivity:          | Human, Mouse, Rat, Cow, Dog, Guinea Pig, Horse, Rabbit, Pig, Zebrafish (Danio rerio), Bat, Monkey |
| Host:                | Rabbit                                                                                            |
| Clonality:           | Polyclonal                                                                                        |
| Conjugate:           | This FLI1 antibody is un-conjugated                                                               |
| Application:         | Western Blotting (WB)                                                                             |

## Product Details

|                       |                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:            | Synthetic peptide from N-Terminus of human FLI1 (Q01543, NP_002008). Percent identity by BLAST analysis: Human, Chimpanzee, Gorilla, Gibbon, Marmoset, Mouse, Rat, Panda, Dog, Bovine, Bat, Rabbit, Horse, Pig, Guinea pig (100%), Galago, Elephant, Opossum, Turkey, Zebra finch, Chicken (92%), Xenopus (85%).<br><br>Type of Immunogen: Synthetic peptide |
| Isotype:              | IgG                                                                                                                                                                                                                                                                                                                                                          |
| Specificity:          | Human FLI1                                                                                                                                                                                                                                                                                                                                                   |
| Predicted Reactivity: | Percent identity by BLAST analysis: Human, Mouse, Rat, Dog, Bovine, Rabbit, Horse, Pig, Guinea pig (100%) Chicken (92%) Xenopus (85%).                                                                                                                                                                                                                       |

## Product Details

Purification: Protein A purified

## Target Details

|                   |                                                                                                                                |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Target:           | FLI1                                                                                                                           |
| Alternative Name: | FLI1 / FLI-1 ( <a href="#">FLI1 Products</a> )                                                                                 |
| Background:       | Name/Gene ID: FLI1<br><br>Synonyms: FLI1, FLI-1, EWSR2, SIC-1, Proto-oncogene Fli-1, Transcription factor ERGB, Fli-1 oncogene |
| Gene ID:          | 2313                                                                                                                           |
| NCBI Accession:   | <a href="#">NP_002008</a>                                                                                                      |
| UniProt:          | <a href="#">Q01543</a>                                                                                                         |

## Application Details

|                    |                                   |
|--------------------|-----------------------------------|
| Application Notes: | Approved: WB (1.25 µg/mL)         |
| Comment:           | Target Species of Antibody: Human |
| Restrictions:      | For Research Use only             |

## Handling

|                  |                                                                                                                                                                                             |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                                                 |
| Reconstitution:  | After adding water, will consist of PBS buffer with 2 % sucrose                                                                                                                             |
| Concentration:   | Lot specific                                                                                                                                                                                |
| Buffer:          | Lyophilized from PBS with 2 % sucrose                                                                                                                                                       |
| Handling Advice: | Avoid repeat freeze-thaw cycles.                                                                                                                                                            |
| Storage:         | 4 °C,-20 °C                                                                                                                                                                                 |
| Storage Comment: | Long term: -20°C, the use of 50% glycerol is recommended if storing aliquots in -20°C for long term use (up to 1 year)<br><br>Short term (less than 1 week): 4°C. Avoid freeze-thaw cycles. |
