

Datasheet for ABIN205516

**anti-CCR3 antibody**[Go to Product page](#)**1** Image

## Overview

|              |                                     |
|--------------|-------------------------------------|
| Quantity:    | 100 µg                              |
| Target:      | CCR3                                |
| Reactivity:  | Human                               |
| Host:        | Mouse                               |
| Clonality:   | Monoclonal                          |
| Conjugate:   | This CCR3 antibody is un-conjugated |
| Application: | Flow Cytometry (FACS)               |

## Product Details

|               |                   |
|---------------|-------------------|
| Clone:        | 5E8               |
| Isotype:      | IgG2a             |
| Purification: | Affinity purified |

## Target Details

|                   |                                                            |
|-------------------|------------------------------------------------------------|
| Target:           | CCR3                                                       |
| Alternative Name: | CCR3 ( <a href="#">CCR3 Products</a> )                     |
| Background:       | Name/Gene ID: CCR3<br>Subfamily: Chemokine<br>Family: GPCR |

Synonyms: CCR3, C-C chemokine receptor type 3, B-chemokine receptor, CD193, CD193

Target Details

|          |                                                                                                                                                                                     |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|          | antigen, Chemokine c-c motif receptor 3, C-C chemokine receptor 3, CKR3, CC-CKR-3, CCR-3, CMKBR3, Eosinophil eotaxin receptor, Eotaxin receptor, C-C CKR-3, CC chemokine receptor 3 |
| Gene ID: | 1232                                                                                                                                                                                |
| UniProt: | <a href="#">P51677</a>                                                                                                                                                              |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Comment:           | Target Species of Antibody: Human                                  |
| Restrictions:      | For Research Use only                                              |

Handling

|                  |                      |
|------------------|----------------------|
| Concentration:   | Lot specific         |
| Handling Advice: | avoid freezing       |
| Storage:         | 4 °C                 |
| Storage Comment: | 4°C, avoid freezing. |
