### 1 Image

#### Overview

|                      |                                                                                                    |
|----------------------|----------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                                             |
| Target:              | BCL2L1                                                                                             |
| Binding Specificity: | AA 3-14                                                                                            |
| Reactivity:          | Human, Mouse, Rat                                                                                  |
| Host:                | Mouse                                                                                              |
| Clonality:           | Monoclonal                                                                                         |
| Conjugate:           | This BCL2L1 antibody is un-conjugated                                                              |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Flow Cytometry (FACS), Immunoprecipitation (IP) |

#### Product Details

|               |                                                   |
|---------------|---------------------------------------------------|
| Immunogen:    | Synthetic peptide from human BCL2L1 / Bcl-xL.     |
|               | Type of Immunogen: Synthetic peptide              |
| Clone:        | 2H12                                              |
| Isotype:      | IgG2a                                             |
| Specificity:  | Amino acids: 3-14 common to human and mouse Bcl-X |
| Purification: | Affinity purified                                 |

#### Target Details

|         |        |
|---------|--------|
| Target: | BCL2L1 |
|---------|--------|

## Target Details

|                   |                                                                                                                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Alternative Name: | BCL2L1 / BCL-XL ( <a href="#">BCL2L1 Products</a> )                                                                                                                                                            |
| Background:       | Name/Gene ID: BCL2L1<br>Family: Apoptosis<br><br>Synonyms: BCL2L1, Apoptosis regulator Bcl-X, Bcl-xL, BCL-XL/S, BCLXS, Bcl-2-like protein 1, BCL2-like 1, BCL2L, Bcl-X, Bcl-xS, BCLXL, PPP1R52, Bcl2-L-1, BCLX |
| Gene ID:          | 598                                                                                                                                                                                                            |
| UniProt:          | <a href="#">Q07817</a>                                                                                                                                                                                         |
| Pathways:         | <a href="#">Apoptosis</a> , <a href="#">Negative Regulation of intrinsic apoptotic Signaling</a>                                                                                                               |

## Application Details

|                    |                                                              |
|--------------------|--------------------------------------------------------------|
| Application Notes: | Approved: Flo, IHC, IP, WB<br><br>Not recommended for: IHC-P |
| Comment:           | Target Species of Antibody: Human                            |
| Restrictions:      | For Research Use only                                        |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | Phosphate-buffered solution, pH 7.2, 0.09 % sodium azide at 0.5 mg/mL.                                                 |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
