## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 0.1 mg                               |
| Target:              | METRN                                |
| Binding Specificity: | N-Term                               |
| Reactivity:          | Mouse, Human                         |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This METRN antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

## Product Details

|               |                                                                                            |
|---------------|--------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide from human METRN.                                                        |
|               | Type of Immunogen: Synthetic peptide                                                       |
| Specificity:  | Synthetic peptide corresponding to N-terminal residues of human METRN (Meteorin precursor) |
| Purification: | Immunoaffinity purified                                                                    |

## Target Details

|                   |                                                     |
|-------------------|-----------------------------------------------------|
| Target:           | METRN                                               |
| Alternative Name: | METRN / Meteorin ( <a href="#">METRN Products</a> ) |
| Background:       | Name/Gene ID: METRN                                 |

### Target Details

|          |                                               |
|----------|-----------------------------------------------|
|          | Synonyms: METRN, C16orf23, C380A1.2, Meteorin |
| Gene ID: | 79006                                         |
| UniProt: | <a href="#">Q9UJH8</a>                        |

### Application Details

|                    |                                         |
|--------------------|-----------------------------------------|
| Application Notes: | Approved: ELISA (1 µg/mL), WB (1 µg/mL) |
| Comment:           | Target Species of Antibody: Human       |
| Restrictions:      | For Research Use only                   |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | PBS, 0.01 % sodium azide, 50 % glycerol.                                                                               |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid repeat freeze-thaw cycles.                                                                                       |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | Short term: 4°C. Long term: Store at -20°C. Avoid freeze-thaw cycles.                                                  |
