

## Datasheet for ABIN2128929

### DKK1 Protein

[Go to Product page](#)

#### Overview

|               |                            |
|---------------|----------------------------|
| Quantity:     | 100 µg                     |
| Target:       | DKK1                       |
| Origin:       | Human                      |
| Source:       | Escherichia coli (E. coli) |
| Protein Type: | Recombinant                |
| Application:  | SDS-PAGE (SDS)             |

#### Product Details

|         |             |
|---------|-------------|
| Purity: | > 90 % pure |
|---------|-------------|

#### Target Details

|                   |                                                                                                                                                             |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | DKK1                                                                                                                                                        |
| Alternative Name: | DKK1 ( <a href="#">DKK1 Products</a> )                                                                                                                      |
| Molecular Weight: | 28.2 kDa                                                                                                                                                    |
| Pathways:         | <a href="#">WNT Signaling</a> , <a href="#">Regulation of Muscle Cell Differentiation</a> , <a href="#">Positive Regulation of fat Cell Differentiation</a> |

#### Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

Handling

|                |                                                                                                |
|----------------|------------------------------------------------------------------------------------------------|
| Format:        | Liquid                                                                                         |
| Concentration: | 1 mg/mL                                                                                        |
| Buffer:        | Supplied in liquid form in 20 mM Tris-HCl buffer ( pH 8.0) containing 0.4M urea, 10 % glycerol |
| Storage:       | 4 °C/-20 °C/-80 °C                                                                             |
