

Datasheet for ABIN2129014
EBV VCA Protein

[Go to Product page](#)

Overview

Quantity:	1 mL
Target:	EBV VCA
Origin:	Epstein-Barr Virus (EBV)
Source:	Echovirus
Protein Type:	Native
Application:	Immunoassay (IA), Western Blotting (WB)

Product Details

Purification:	EBV VCA gp125 protein was purified by immunoaffinity chromatography
Purity:	> 99 % pure

Target Details

Target:	EBV VCA
Alternative Name:	EBV VCA
Target Type:	Viral Protein
Molecular Weight:	125 kDa

Application Details

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
Concentration:	30 µg/mL
Buffer:	Supplied in 20 mM TRIS-HCL with 3M MgCl ₂ , pH 7.4
Storage:	4 °C/-20 °C/-80 °C
