

Datasheet for ABIN2129711 HIV-1 p24 Protein

[Go to Product page](#)

Overview

Quantity:	50 µg
Target:	HIV-1 p24
Origin:	Human Immunodeficiency Virus (HIV)
Source:	Baculovirus
Protein Type:	Recombinant
Application:	Western Blotting (WB), ELISA

Product Details

Purity:	> 90 % pure
---------	-------------

Target Details

Target:	HIV-1 p24
Alternative Name:	HIV1 p24 (HIV-1 p24 Products)
Target Type:	Viral Protein

Application Details

Application Notes:	ELISA: 1:500-1:1,000, WB: 1:500-1:1,000
Restrictions:	For Research Use only

Handling

Buffer:	Supplied in 50 mM TRIS, pH 8.0 with no preservatives added. Conjugated to the protein by
---------	--

Handling

glutaraldehyde coupling to the lysine residue.

Preservative: Without preservative

Storage: 4 °C/-20 °C/-80 °C
