## HPV16 Protein

### Overview

Quantity:	100 µg
Target:	HPV16 (HPV-16)
Origin:	Human
Source:	Escherichia coli (E. coli)
Protein Type:	Recombinant

### Product Details

Purification:	HPV16 protein was purified by GSH affinity chromatography technique
Purity:	> 95 % pure

### Target Details

Target:	HPV16 (HPV-16)
Alternative Name:	HPV16 ( <a href="#">HPV-16 Products</a> )
Target Type:	Virus

### Application Details

Restrictions:	For Research Use only
---------------	-----------------------

### Handling

Format:	Liquid
Buffer:	Supplied as a clear liquid with 1xPBS, 40 mM arginine and 0.02 % sodium azide

## Handling

---

Storage: 4 °C/-20 °C/-80 °C
