

## Datasheet for ABIN2129940

### IL12 Protein

[Go to Product page](#)

#### Overview

|               |                |
|---------------|----------------|
| Quantity:     | 50 µg          |
| Target:       | IL12           |
| Origin:       | Human          |
| Source:       | Insect Cells   |
| Protein Type: | Recombinant    |
| Application:  | SDS-PAGE (SDS) |

#### Product Details

|         |             |
|---------|-------------|
| Purity: | > 85 % pure |
|---------|-------------|

#### Target Details

|                   |                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | IL12                                                                                                                                                                                                                                                                                                                                                                                                  |
| Alternative Name: | IL12 ( <a href="#">IL12 Products</a> )                                                                                                                                                                                                                                                                                                                                                                |
| Molecular Weight: | 34.6 kDa                                                                                                                                                                                                                                                                                                                                                                                              |

#### Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|                |                                                               |
|----------------|---------------------------------------------------------------|
| Format:        | Liquid                                                        |
| Concentration: | 200 µg/mL                                                     |
| Buffer:        | Supplied as liquid in PBS ( pH 7.4), 20 % glycerol, 1 mM EDTA |
| Storage:       | 4 °C/-20 °C/-80 °C                                            |
