

## Datasheet for ABIN2130391 **LRG1 Protein**

[Go to Product page](#)

### Overview

|               |                                                                   |
|---------------|-------------------------------------------------------------------|
| Quantity:     | 10 µg                                                             |
| Target:       | LRG1                                                              |
| Origin:       | Human                                                             |
| Source:       | Human                                                             |
| Protein Type: | Native                                                            |
| Application:  | Western Blotting (WB), ELISA, Cell Culture (CC), Immunoassay (IA) |

### Product Details

#### Target Details

|                   |                                                |
|-------------------|------------------------------------------------|
| Target:           | LRG1                                           |
| Alternative Name: | LRG1 ( <a href="#">LRG1 Products</a> )         |
| Molecular Weight: | 38.2 kDa                                       |
| Pathways:         | <a href="#">Brown Fat Cell Differentiation</a> |

#### Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

### Handling

|         |                                                                     |
|---------|---------------------------------------------------------------------|
| Format: | Lyophilized                                                         |
| Buffer: | Supplied in lyophilized form from 20 mM Tris and 20 mM NaCl, pH 7.5 |

## Handling

---

Storage: 4 °C/-20 °C/-80 °C
