Datasheet for ABIN2130877

NREP Protein

Overview

Quantity:	20 µg
Target:	NREP (C5orf13)
Origin:	Human
Source:	Escherichia coli (E. coli)
Protein Type:	Recombinant
Application:	SDS-PAGE (SDS)

Product Details

Purification:	NREP protein was purified by using conventional chromatography techniques
Purity:	> 85 % pure

Target Details

Target:	NREP (C5orf13)
Alternative Name:	NREP (C5orf13 Products)
Molecular Weight:	10.3 kDa

Application Details

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
---------	--------

Handling

Concentration:	500 µg/mL
Buffer:	Supplied in liquid form in 20 mM Tris-HCl buffer (pH 8.0) containing 10 % glycerol 0.1M NaCl
Storage:	4 °C/-20 °C/-80 °C
