## Overview

|              |                                                   |
|--------------|---------------------------------------------------|
| Quantity:    | 100 µL                                            |
| Target:      | Prominin 2 (PROM2)                                |
| Reactivity:  | Human                                             |
| Host:        | Mouse                                             |
| Clonality:   | Monoclonal                                        |
| Conjugate:   | This Prominin 2 antibody is un-conjugated         |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC) |

## Product Details

|               |                                                                                                                                            |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | PROM2 antibody was raised in mouse using a protein expressed in 293T cell transfected with human PROM2 expression vector as the immunogen. |
| Clone:        | 6B7                                                                                                                                        |
| Isotype:      | IgG1                                                                                                                                       |
| Purification: | PROM2 antibody was purified by affinity chromatography.                                                                                    |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | Prominin 2 (PROM2)                       |
| Alternative Name: | PROM2 ( <a href="#">PROM2 Products</a> ) |

Application Details

|                    |                       |
|--------------------|-----------------------|
| Application Notes: | IHC: 1:50, WB: 1:2000 |
| Restrictions:      | For Research Use only |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | In PBS buffer, pH 7.3, containg 1 % BSA, 50 % glycerol and 0.02 % sodium azide.                                        |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid repeated freeze/thaw cycles                                                                                      |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at 4 °C for short term storage. Aliquot and store at -20 °C for long term storage.                               |
