## Overview

|              |                                                          |
|--------------|----------------------------------------------------------|
| Quantity:    | 100 µg                                                   |
| Target:      | PSMB2                                                    |
| Reactivity:  | Human                                                    |
| Host:        | Rabbit                                                   |
| Clonality:   | Polyclonal                                               |
| Conjugate:   | This PSMB2 antibody is conjugated to Biotin              |
| Application: | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                                                                                              |
|---------------|------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | PSMB2 antibody (Biotin) was raised in Rabbit using recombinant human Proteasome subunit beta type-2 protein as the immunogen |
| Isotype:      | IgG                                                                                                                          |
| Purification: | PSMB2 antibody (Biotin) was purified by Ammonium Sulfate precipitation                                                       |

## Target Details

|                   |                                                                                                             |
|-------------------|-------------------------------------------------------------------------------------------------------------|
| Target:           | PSMB2                                                                                                       |
| Alternative Name: | PSMB2 ( <a href="#">PSMB2 Products</a> )                                                                    |
| Pathways:         | <a href="#">Mitotic G1-G1/S Phases</a> , <a href="#">DNA Replication</a> , <a href="#">Synthesis of DNA</a> |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|                  |                                                                       |
|------------------|-----------------------------------------------------------------------|
| Concentration:   | Lot specific                                                          |
| Buffer:          | 0.03 % Procl 300, 50 % Glycerol and 0.01M PBS, PH 7.4                 |
| Handling Advice: | Avoid repeated freeze/thaw cycles                                     |
| Storage:         | 4 °C/-20 °C                                                           |
| Storage Comment: | Store at 4 °C for short term storage and -20 °C for long term storage |
