## Overview

|                      |                                    |
|----------------------|------------------------------------|
| Quantity:            | 50 µL                              |
| Target:              | TDG                                |
| Binding Specificity: | AA 1-410                           |
| Reactivity:          | Human                              |
| Host:                | Mouse                              |
| Clonality:           | Monoclonal                         |
| Conjugate:           | This TDG antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA       |

## Product Details

|               |                                                                                                               |
|---------------|---------------------------------------------------------------------------------------------------------------|
| Immunogen:    | TDG antibody was raised in Mouse using recombinant human TDG (1-410aa) purified from E. coli as the immunogen |
| Clone:        | AT2F7                                                                                                         |
| Isotype:      | IgG1 kappa                                                                                                    |
| Purification: | TDG antibody was purified by protein-A affinity chromatography                                                |

## Target Details

|                   |                                                                       |
|-------------------|-----------------------------------------------------------------------|
| Target:           | TDG                                                                   |
| Alternative Name: | TDG ( <a href="#">TDG Products</a> )                                  |
| Pathways:         | <a href="#">DNA Damage Repair</a> , <a href="#">Chromatin Binding</a> |

Application Details

|                    |                         |
|--------------------|-------------------------|
| Application Notes: | ELISA: 1:250, WB: 1:250 |
| Restrictions:      | For Research Use only   |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | In liquid form in Phosphate-Buffered Saline ( pH 7.4) containg 10 % Glycerol and 0.02 % Sodium Azide                   |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Can be stored at 4 °C short term. For long term storage, aliquot and store at -20 °C.                                  |
