## Overview

|              |                                                          |
|--------------|----------------------------------------------------------|
| Quantity:    | 100 µg                                                   |
| Target:      | Transferrin (TF)                                         |
| Reactivity:  | Rat                                                      |
| Host:        | Rabbit                                                   |
| Clonality:   | Polyclonal                                               |
| Conjugate:   | This Transferrin antibody is conjugated to FITC          |
| Application: | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                                                         |
|---------------|-----------------------------------------------------------------------------------------|
| Immunogen:    | Transferrin antibody (FITC) was raised in Rabbit using Rat Transferrin as the immunogen |
| Isotype:      | IgG                                                                                     |
| Purification: | Transferrin antibody (FITC) was purified by Ammonium Sulfate precipitation              |

## Target Details

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Target:           | Transferrin (TF)                                 |
| Alternative Name: | Transferrin ( <a href="#">TF Products</a> )      |
| Pathways:         | <a href="#">Transition Metal Ion Homeostasis</a> |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|                  |                                                                       |
|------------------|-----------------------------------------------------------------------|
| Concentration:   | Lot specific                                                          |
| Buffer:          | 0.03 % Procl 300, 50 % Glycerol and 0.01M PBS, PH 7.4                 |
| Handling Advice: | Avoid repeated freeze/thaw cycles                                     |
| Storage:         | 4 °C/-20 °C                                                           |
| Storage Comment: | Store at 4 °C for short term storage and -20 °C for long term storage |
