

## Datasheet for ABIN2171241 **anti-EVA1C antibody (PE)**

[Go to Product page](#)

### Overview

|              |                                         |
|--------------|-----------------------------------------|
| Quantity:    | 100 µL                                  |
| Target:      | EVA1C                                   |
| Reactivity:  | Human, Mouse, Rat                       |
| Host:        | Rabbit                                  |
| Clonality:   | Polyclonal                              |
| Conjugate:   | This EVA1C antibody is conjugated to PE |
| Application: | Western Blotting (WB)                   |

### Product Details

|                       |                                                              |
|-----------------------|--------------------------------------------------------------|
| Immunogen:            | KLH conjugated synthetic peptide derived from human c21orf63 |
| Isotype:              | IgG                                                          |
| Predicted Reactivity: | Human, Mouse, Rat, Cow, Sheep, Pig, Horse, Rabbit            |
| Purification:         | Purified by Protein A.                                       |

### Target Details

|                   |                                                                                                                                                             |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | EVA1C                                                                                                                                                       |
| Alternative Name: | C21orf63 ( <a href="#">EVA1C Products</a> )                                                                                                                 |
| Background:       | Synonyms: B18, B19, C21orf64, chromosome 21 open reading frame 63, PRED34, SUE21,<br>Uncharacterized protein C21orf63, EVA1C_HUMAN.<br>Background: c21orf63 |

Application Details

|                    |                       |
|--------------------|-----------------------|
| Application Notes: | FCM(1:20-100)         |
| Restrictions:      | For Research Use only |

Handling

|                    |                                                                                                                         |
|--------------------|-------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                  |
| Concentration:     | 1 µg/µL                                                                                                                 |
| Buffer:            | Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.             |
| Preservative:      | Sodium azide                                                                                                            |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                  |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                       |
| Expiry Date:       | 12 months                                                                                                               |
