

Datasheet for ABIN2192167 **anti-C6 antibody**

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	C6
Reactivity:	Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This C6 antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (Frozen Sections) (IHC (fro))

Product Details

Sterility:	0.2 µm filtered
------------	-----------------

Target Details

Target:	C6
Abstract:	C6 Products
Background:	During complement activation the circulating complement compound C6 is bound by the C3b5b complex to form the first stage of the membrane attack complex. The formed C5b6 complex binds to C7 where after C8 binds, followed by binding of a variable amount of C9 Molecules. The complement factor C6 is an acute-phase reactant for which a CCAAT enhancer binding site essential is.

Application Details

Application Notes: For immuno histology and Western blotting dilutions to be used depend on detection system applied. It is recommended that users test the reagent and determine their own optimal dilutions. The typical starting working dilution is 1:10. The antibody should be used in TBS and not in PBS.

Restrictions: For Research Use only

Handling

Buffer: PBS, containing 0.02 % sodium azide and 0.1 % bovine serum albumin.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C

Storage Comment: Product should be stored at 4 °C. Under recommended storage conditions, product is stable for one year.

Expiry Date: 12 months
