Datasheet for ABIN2197419
anti-Agouti antibody (N-Term)

Overview

| | |
|----------------------|---------------------------------------|
| Quantity: | 100 µg |
| Target: | Agouti (A) |
| Binding Specificity: | N-Term |
| Reactivity: | Mouse |
| Host: | Rabbit |
| Clonality: | Polyclonal |
| Conjugate: | This Agouti antibody is un-conjugated |
| Application: | ELISA, Western Blotting (WB) |

Product Details

| | |
|-----------------------------|--|
| Immunogen: | Synthetic peptid consisting of 21aa near the N-terminus of mouse Agouti (KLH). |
| Isotype: | IgG |
| Cross-Reactivity: | Mouse (Murine) |
| Cross-Reactivity (Details): | Calculated cross reactivity: Mo |
| Characteristics: | Agouti |
| Purification: | Purified by immunoaffinity chromatography |

Target Details

| | |
|-------------------|---------------------------------------|
| Target: | Agouti (A) |
| Alternative Name: | Agouti (A Products) |

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, 0.1 % BSA.

Storage: -20 °C

Storage Comment: -20°C
