

Datasheet for ABIN2197524

anti-AGRN antibody (C-Term)

Overview

Quantity:	200 μg
Target:	AGRN
Binding Specificity:	C-Term
Reactivity:	Rat
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This AGRN antibody is un-conjugated
Application:	Western Blotting (WB), Immunochromatography (IC)
Product Details	
Immunogen:	Recombinant rat agrin (C-terminal construct). Epitope: near the Z splicing site.
Clone:	2Q17
Isotype:	lgG1
Cross-Reactivity:	Mouse (Murine), Rat (Rattus)
Cross-Reactivity (Details):	Calculated cross reactivity: Mo Rt
Characteristics:	Agrin
Purification:	Purified by Protein A affinity chromatography.
Target Details	
Target:	AGRN

Target Details

Alternative Name:	Agrin (AGRN Products)
Pathways:	Glycosaminoglycan Metabolic Process, Regulation of Muscle Cell Differentiation, Skeletal
	Muscle Fiber Development

Application Details

Application Notes:	Optimal working conditions should be determined by the investigator.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	Supplied as a liquid in PBS, 0.1 mM PMSF, 50 % glycerol.
Preservative:	PMSF
Storage:	4 °C,-20 °C
Storage Comment:	4°C (-20°C Glycerol)
