## anti-beta-Thromboglobulin antibody (AA 46-107)

[Go to Product page](#)

### Overview

|                      |                                                                                     |
|----------------------|-------------------------------------------------------------------------------------|
| Quantity:            | 200 µL                                                                              |
| Target:              | beta-Thromboglobulin (beta-TG)                                                      |
| Binding Specificity: | AA 46-107                                                                           |
| Reactivity:          | Rat                                                                                 |
| Host:                | Rabbit                                                                              |
| Clonality:           | Polyclonal                                                                          |
| Conjugate:           | This beta-Thromboglobulin antibody is un-conjugated                                 |
| Application:         | Immunohistochemistry (IHC), Western Blotting (WB), ELISA, Immunochromatography (IC) |

### Product Details

|                             |                                                                                                                               |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | bTG (Ile46~Ile107), MGSSHHHHHSSGLVPRGSHMASMTGGQQMGRGS-IELRC RCTNTLSGIP<br>LNSISRVNVF RPGAHCDNVE VIATLKNGKE VCLDPTAPMI KKIVKKI |
| Sequence:                   | MGSSHHHHHH SSGLVPRGSH MASMTGGQQM GRGS-IELRCRCTNT LSGIP LNSISRVNVF<br>RPGAHCNDVE VIATLKNGKE VCLDPTAPMI KKIVKKI                 |
| Isotype:                    | IgG                                                                                                                           |
| Cross-Reactivity:           | Rat (Rattus)                                                                                                                  |
| Cross-Reactivity (Details): | Calculated cross reactivity: Rt                                                                                               |
| Characteristics:            | Beta-Thromboglobulin (bTG)                                                                                                    |
| Purification:               | Purified by immunoaffinity chromatography.                                                                                    |

### Target Details

|                   |                                                           |
|-------------------|-----------------------------------------------------------|
| Target:           | beta-Thromboglobulin (beta-TG)                            |
| Alternative Name: | beta-Thromboglobulin ( <a href="#">beta-TG Products</a> ) |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.05 % sodium azide, 50 % glycerol.                                               |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
