## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 100 µg                              |
| Target:              | CCL1                                |
| Binding Specificity: | AA 24-97                            |
| Reactivity:          | Human                               |
| Host:                | Mouse                               |
| Clonality:           | Monoclonal                          |
| Conjugate:           | This CCL1 antibody is un-conjugated |
| Application:         | ELISA                               |

## Product Details

|                             |                                                                                                                            |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Partial recombinant corresponding to aa24-97 from human CCL1 (NP_002972) with GST tag.<br>MW of the GST tag alone is 26kD. |
| Clone:                      | 4E4                                                                                                                        |
| Isotype:                    | IgG2b kappa                                                                                                                |
| Cross-Reactivity:           | Human                                                                                                                      |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                            |
| Characteristics:            | CCL1 (C-C Motif Chemokine 1, Small-inducible Cytokine A1, T Lymphocyte-secreted Protein I-309, SCYA1)                      |
| Purification:               | Purified by Protein A affinity chromatography.                                                                             |

Target Details

|                   |                      |
|-------------------|----------------------|
| Target:           | CCL1                 |
| Alternative Name: | CCL1 (CCL1 Products) |
| NCBI Accession:   | NM_002981, NP_002972 |

Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

Handling

|                  |                                      |
|------------------|--------------------------------------|
| Format:          | Liquid                               |
| Buffer:          | Supplied as a liquid in PBS, pH 7.2. |
| Storage:         | -20 °C                               |
| Storage Comment: | -20°C                                |
