## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 200 µL                              |
| Target:              | CETP                                |
| Binding Specificity: | N-Term                              |
| Reactivity:          | Human                               |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This CETP antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA        |

## Product Details

|                             |                                                                            |
|-----------------------------|----------------------------------------------------------------------------|
| Immunogen:                  | Synthetic peptide selected from the N-terminal region of human CETP (KLH). |
| Isotype:                    | IgG                                                                        |
| Cross-Reactivity:           | Human                                                                      |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                            |
| Characteristics:            | CETP, NT (Lipid Transfer Protein I, Cholesteryl Ester Transfer Protein)    |
| Purification:               | Purified by ammonium sulfate precipitation.                                |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | CETP                                   |
| Alternative Name: | CETP ( <a href="#">CETP Products</a> ) |

## Target Details

NCBI Accession: [NP\\_000069](#)

UniProt: [P11597](#)

## Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: -20°C
