## anti-CHST8 antibody (Center, Internal Region)

[Go to Product page](#)

### Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 200 µL                               |
| Target:              | CHST8                                |
| Binding Specificity: | AA 226-255, Center, Internal Region  |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This CHST8 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

### Product Details

|                             |                                                                                                                                                                |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | CHST8 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 226-255 amino acids from the Central region of human CHST8. |
| Isotype:                    | IgG                                                                                                                                                            |
| Cross-Reactivity:           | Human                                                                                                                                                          |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                |
| Characteristics:            | CHST8, ID (CHST8, Carbohydrate sulfotransferase 8, GalNAc-4-O-sulfotransferase 1, N-acetylgalactosamine-4-O-sulfotransferase 1)                                |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                 |

Target Details

|                   |                                                                                         |
|-------------------|-----------------------------------------------------------------------------------------|
| Target:           | CHST8                                                                                   |
| Alternative Name: | CHST8 ( <a href="#">CHST8 Products</a> )                                                |
| NCBI Accession:   | <a href="#">NP_071912</a> , <a href="#">NP_001121367</a> , <a href="#">NP_001121368</a> |
| UniProt:          | <a href="#">Q9H2A9</a>                                                                  |

Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
