Datasheet for ABIN2235469
anti-CNIH antibody (C-Term) (FITC)

Overview

| | |
|----------------------|--|
| Quantity: | 200 µL |
| Target: | CNIH |
| Binding Specificity: | AA 75-104, C-Term |
| Reactivity: | Human |
| Host: | Rabbit |
| Clonality: | Polyclonal |
| Conjugate: | This CNIH antibody is conjugated to FITC |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), ELISA |

Product Details

| | |
|-----------------------------|--|
| Immunogen: | CNIH antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 75-104 amino acids from the C-terminal region of human CNIH. |
| Isotype: | IgG |
| Cross-Reactivity: | Human |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu |
| Characteristics: | CNIH, CT (CNIH, CNIL, Protein cornichon homolog, T-cell growth-associated molecule 77) (FITC) |
| Purification: | Purified by Protein A affinity chromatography. |

Target Details

| | |
|-------------------|--|
| Target: | CNIH |
| Alternative Name: | CNIH (CNIH Products) |
| NCBI Accession: | NP_005767 |
| UniProt: | O95406 |

Application Details

| | |
|--------------------|--|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions: | For Research Use only |

Handling

| | |
|------------------|--------------------------------------|
| Format: | Liquid |
| Buffer: | Supplied as a liquid in PBS, pH 7.2. |
| Storage: | -20 °C |
| Storage Comment: | -20°C |
