

## Datasheet for ABIN2236927 **anti-C5A antibody**

[Go to Product page](#)

### Overview

|              |                                    |
|--------------|------------------------------------|
| Quantity:    | 100 µg                             |
| Target:      | C5A (C5a)                          |
| Reactivity:  | Human                              |
| Host:        | Mouse                              |
| Clonality:   | Monoclonal                         |
| Conjugate:   | This C5A antibody is un-conjugated |
| Application: | ELISA, Neutralization (Neut)       |

### Product Details

|                             |                                                |
|-----------------------------|------------------------------------------------|
| Immunogen:                  | Human C5/C5a                                   |
| Clone:                      | 6A532                                          |
| Isotype:                    | IgG2a                                          |
| Cross-Reactivity:           | Human                                          |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                |
| Characteristics:            | Complement C5, C5a                             |
| Purification:               | Purified by Protein G affinity chromatography. |

### Target Details

|                   |                                                     |
|-------------------|-----------------------------------------------------|
| Target:           | C5A (C5a)                                           |
| Alternative Name: | Complement C5, C5a ( <a href="#">C5a Products</a> ) |

Target Details

Pathways: Complement System, Carbohydrate Homeostasis

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, 0.1 % BSA.

Storage: -20 °C

Storage Comment: -20°C
