

Datasheet for ABIN2247475
anti-CYGB antibody (AA 1-191)

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	CYGB
Binding Specificity:	AA 1-191
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This CYGB antibody is un-conjugated
Application:	Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunofluorescence (IF)

Product Details

Immunogen:	Full length recombinant corresponding to aa1-191 from human CYGB (AAH29798) with GST tag. MW of the GST tag alone is 26kD.
Clone:	1A1
Isotype:	IgG1 kappa
Cross-Reactivity:	Human
Cross-Reactivity (Details):	Calculated cross reactivity: Hu
Characteristics:	CYGB (STAP, Cytoglobin, Histoglobin, Stellate Cell Activation-associated Protein)
Purification:	Purified by Protein A affinity chromatography.

Target Details

Target:	CYGB
Alternative Name:	CYGB (CYGB Products)

Application Details

Application Notes:	Optimal working conditions should be determined by the investigator.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	Supplied as a liquid in PBS, pH 7.2.
Storage:	-20 °C
Storage Comment:	-20°C
