

Datasheet for ABIN2251448
anti-DCPS antibody (AA 1-338)

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	DCPS
Binding Specificity:	AA 1-338
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This DCPS antibody is un-conjugated
Application:	Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunofluorescence (IF)

Product Details

Immunogen:	Full length recombinant corresponding to aa1-338 from human DCPS (AAH14532) with GST tag. MW of the GST tag alone is 26kD.
Clone:	1G4
Isotype:	IgG2b kappa
Cross-Reactivity:	Human, Rat (Rattus)
Cross-Reactivity (Details):	Calculated cross reactivity: Hu Rt
Characteristics:	DCPS (DCS1, HINT5, m7GpppX Diphosphatase, DCS-1, Hint-related 7meGMP-directed Hydrolase, Histidine Triad Protein Member 5, Scavenger mRNA-decapping Enzyme DcpS, HSPC015)
Purification:	Purified by Protein A affinity chromatography.

Target Details

Target:	DCPS
Alternative Name:	DCPS (DCPS Products)

Application Details

Application Notes:	Optimal working conditions should be determined by the investigator.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	Supplied as a liquid in PBS, pH 7.2.
Storage:	-20 °C
Storage Comment:	-20°C
