## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 200 µL                                 |
| Target:              | DNAJC10                                |
| Binding Specificity: | AA 55-82, N-Term                       |
| Reactivity:          | Mouse                                  |
| Host:                | Rabbit                                 |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This DNAJC10 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA           |

## Product Details

|                             |                                                                                                                                                                     |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | DNAJC10 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 55-82 amino acids from the N-terminal region of human DNAJC10. |
| Isotype:                    | IgG                                                                                                                                                                 |
| Cross-Reactivity:           | Mouse (Murine)                                                                                                                                                      |
| Cross-Reactivity (Details): | Calculated cross reactivity: Mo                                                                                                                                     |
| Characteristics:            | DNAJC10, NT (DNAJC10, ERDJ5, DnaJ homolog subfamily C member 10, ER-resident protein ERdj5, Macrothioredoxin)                                                       |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                      |

### Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Target:           | DNAJC10                                      |
| Alternative Name: | DNAJC10 ( <a href="#">DNAJC10 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_061854</a>                    |
| UniProt:          | <a href="#">Q8IXB1</a>                       |
| Pathways:         | <a href="#">Cell RedoxHomeostasis</a>        |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
