## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 200 µL                               |
| Target:              | EXOC8 (EXO84)                        |
| Binding Specificity: | AA 367-397, Center, Internal Region  |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This EXOC8 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

## Product Details

|                             |                                                                                                                                                                |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | EXOC8 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 367-397 amino acids from the Central region of human EXOC8. |
| Isotype:                    | IgG                                                                                                                                                            |
| Cross-Reactivity:           | Human, Mouse (Murine)                                                                                                                                          |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo                                                                                                                             |
| Characteristics:            | EXOC8, ID (EXOC8, Exocyst complex component 8, Exocyst complex 84kD subunit)                                                                                   |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                 |

## Target Details

|         |               |
|---------|---------------|
| Target: | EXOC8 (EXO84) |
|---------|---------------|

### Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Alternative Name: | EXOC8 ( <a href="#">EXO84 Products</a> )   |
| NCBI Accession:   | <a href="#">NP_787072</a>                  |
| UniProt:          | <a href="#">Q8IYI6</a>                     |
| Pathways:         | <a href="#">Peptide Hormone Metabolism</a> |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
