Datasheet for ABIN2264014
anti-Factor VIIIc antibody (HRP)

Overview

Quantity:	200 µg
Target:	Factor VIIIc
Reactivity:	Human
Host:	Sheep
Clonality:	Polyclonal
Conjugate:	This Factor VIIIc antibody is conjugated to HRP
Application:	ELISA

Product Details

Immunogen:	Human Factor VIII:C (F.VIII) purified from F.VIII concentrate.
Isotype:	IgG
Cross-Reactivity:	Human
Cross-Reactivity (Details):	Calculated cross reactivity: Hu
Characteristics:	Factor VIIIc (Antihemophilic Factor) (HRP)
Purification:	Purified

Target Details

Target:	Factor VIIIc
Abstract:	Factor VIIIc Products

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in a buffered stabilizer solution, 50 % glycerol. No preservatives are added.

Preservative: Without preservative

Storage: -20 °C

Storage Comment: -20°C
