## Overview

|                      |                                                                                                          |
|----------------------|----------------------------------------------------------------------------------------------------------|
| Quantity:            | 200 µL                                                                                                   |
| Target:              | FKBP1B                                                                                                   |
| Binding Specificity: | AA 16-46, N-Term                                                                                         |
| Reactivity:          | Human                                                                                                    |
| Host:                | Rabbit                                                                                                   |
| Clonality:           | Polyclonal                                                                                               |
| Conjugate:           | This FKBP1B antibody is un-conjugated                                                                    |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF),<br>Immunochromatography (IC) |

## Product Details

|                             |                                                                                                                                                                                                                                            |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | KLH-conjugated synthetic peptide corresponding to a fragment of amino acids located between corresponding to a portion of amino acids within aa16-46 in the N-terminal region of human FKBP1B.                                             |
| Isotype:                    | IgG                                                                                                                                                                                                                                        |
| Cross-Reactivity:           | Human, Mouse (Murine)                                                                                                                                                                                                                      |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo                                                                                                                                                                                                         |
| Characteristics:            | FKBP1B, NT (h-FKBP-12, Immunophilin FKBP12.6, 12.6kD FK506-binding Protein, 12.6kD FKBP, FKBP-12.6, Rotamase, FK506-binding Protein 1B, FKBP-1B, Peptidyl-prolyl cis-trans Isomerase FKBP1B, PPIase FKBP1B, FKBP12.6, FKBP1L, FKBP9, OTK4) |
| Purification:               | Purified by ammonium sulfate precipitation.                                                                                                                                                                                                |

### Target Details

|                   |                                                                                                                                                            |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | FKBP1B                                                                                                                                                     |
| Alternative Name: | FKBP1B ( <a href="#">FKBP1B Products</a> )                                                                                                                 |
| NCBI Accession:   | <a href="#">NP_004107</a>                                                                                                                                  |
| UniProt:          | <a href="#">P68106</a>                                                                                                                                     |
| Pathways:         | <a href="#">Hormone Transport</a> , <a href="#">Negative Regulation of Hormone Secretion</a> , <a href="#">Negative Regulation of Transporter Activity</a> |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, 0.09 % sodium azide.                                                                      |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
