## Overview

|                      |                                                                                 |
|----------------------|---------------------------------------------------------------------------------|
| Quantity:            | 200 µL                                                                          |
| Target:              | GTPBP2                                                                          |
| Binding Specificity: | AA 543-572, C-Term                                                              |
| Reactivity:          | Human                                                                           |
| Host:                | Rabbit                                                                          |
| Clonality:           | Polyclonal                                                                      |
| Conjugate:           | This GTPBP2 antibody is un-conjugated                                           |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Flow Cytometry (FACS) |

## Product Details

|                             |                                                                                                                                                                     |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | GTPBP2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 543-572 amino acids from the C-terminal region of human GTPBP2. |
| Isotype:                    | IgG                                                                                                                                                                 |
| Cross-Reactivity:           | Human, Mouse (Murine)                                                                                                                                               |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hm Hu Mo                                                                                                                               |
| Characteristics:            | GTPBP2, CT (GTPBP2, GTP-binding protein 2)                                                                                                                          |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                      |

## Target Details

|         |        |
|---------|--------|
| Target: | GTPBP2 |
|---------|--------|

Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Alternative Name: | GTPBP2 ( <a href="#">GTPBP2 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_061969</a>                  |
| UniProt:          | <a href="#">Q9BX10</a>                     |

Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
